

PLAY BACK OUR MOUNTAINS, RIVERS AND THEIR BEINGS

30th of June - 5th of July 2026 in Gillué (Huesca)
Five days with Diana Calvo and Kata Schlierf

In times of digital globalization, we offer **spaces of empathic and intuitive connection** to ourselves and nature and the opportunity of sharing our connecting experiences through Playback Theater. We do this in the Spanish Pre-Pyrenees and the German Pre-Alps.

We invite people to participate in a collective process of inquiry integrating heart and mind on the questions of how to be among the living as humans and take care of our environment. Our facilitation will draw on tools for accessing and developing our empathy and our intuition, as well as on Playback Theater, as a transformative and connecting way of sharing stories. We will guide you into intuitive and empathic connection with nature. Through training in Playback theater we open spaces for sharing stories that might emerge for each of us when connecting to nature. Thus we create a common narrative and a space of care, listening, play and trust.

We offer this work in different places, where human connections and nature seem to invite us. The wish to connect spaces in the Spanish Pre-Pyrenees and the German Pre-Alps comes from our personal networks and trajectories. It also arises from our environmental and social activism, which motivates us to make processes visible and tangible that seem to put those places at risk.

Creating spaces where beings and places connect through playback theater, empathy and intuition seems to us a good way to support life.

Workshop languages: German and English.
